

James Michael Solamo

Bocaue, Bulacan | +63 981 163 5768 | solamojamesmichael@gmail.com | jmsolamo.vercel.app

Professional Summary

Bachelor of Science in Information Technology graduate with hands-on experience in full-stack web development through internship and academic projects. Skilled in React, Node.js, PHP, MySQL, and modern web technologies, with experience building business-focused systems and optimizing application performance.

Education

B.S. Information Technology **Graduation: July 09, 2026**

Dr. Yanga's Colleges Inc.

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React, Vite, Tailwind CSS
Framework: Next.js, Laravel
Backend & Databases: Node.js, Express, PHP, Python, Java, MySQL, MongoDB, Supabase
Tools: Git, GitHub, VS Code, Figma
Deployment: Vercel, Netlify, Hostinger
Others: Microsoft Office (Word, Excel), Troubleshooting, System Installation, Hardware Setup

Internship Experience

Full-Stack Web Developer Intern **March 2026 – June 2026**

Enertech System Industries, Inc. — Prenza II, Marilao, Bulacan

- Developed LogiTrack, a full-stack logistics monitoring system that digitized delivery expense tracking, scheduling, vehicle availability, and job order management.
- Optimized MySQL queries, connection pooling, and API workflows, achieving 40% faster response times across 13+ endpoints and improving data integrity by 45%.
- Automated delivery workflows and real-time reporting, reducing manual tracking time by 65%, reporting time by 55%, and administrative workload by 60%.

Projects

LogiTrack: Logistics Monitoring System | *React, Node.js, Express, MySQL, Tailwind CSS* **March 2026 – June 2026**

- Developed a full-stack logistics monitoring system for delivery tracking, expense monitoring, vehicle availability, and job order management.
- Built CRUD modules for deliveries, vehicles, personnel, and fuel management, improving data integrity by 45%.
- Designed a real-time analytics dashboard using Recharts and optimized MySQL queries and connection pooling, achieving 40% faster API response times across 13+ endpoints.
- Automated delivery request workflows and personnel assignment, reducing manual tracking time by 65% and administrative workload by 60%.

Dental Spirit Dental Center | *PHP, MySQL, Firebase, Tailwind CSS, JavaScript* **November 2025 – February 2026**

- Developed a dental appointment management system that reduced manual scheduling by 70%.
- Built CRUD modules for appointments, walk-ins, and patient profiles, improving data accuracy by 40%.
- Optimized SQL queries and application workflows, resulting in 30% faster page loads.
- Enhanced the user interface and appointment workflows, reducing user errors by 25%.

Campus Reservation System | *React.js, PHP, Firebase, MySQL, Tailwind CSS* **June 2025 – October 2025**

- Developed a role-based reservation platform, reducing approval time by 50%.
- Implemented reservation conflict checking, preventing 90% of overlapping reservations.
- Created role-specific registration and approval workflows, increasing approval efficiency by 35%.
- Redesigned the user interface using Tailwind CSS, improving responsiveness and reducing task completion time by 20%.

Certifications

- **Device Configuration and Management (Windows 11) – Information Technology Specialist (Jan 2026)**
- **HCIA–Cloud Service V3.5 – Huawei ICT Academy (Dec 2025)**
- **Introduction to Cybersecurity – Cisco Networking Academy (Dec 2024)**
- **Computer Systems Servicing – TESDA (Oct 2024)**
- **Installing and Configuring Computer Systems – TESDA (Oct 2024)**
- **Setting Up Computer Networks – TESDA (Oct 2024)**
- **Setting Up Computer Servers – TESDA (Oct 2024)**
- **Java Programming Course – Oracle Academy (May 2023)**

Seminars & Trainings

- **AgentBlazer Champion Workshop – Salesforce (November 2025)**
- **4th Regional Cybersecurity Conference – Holy Angel University (October 2025)**
- **CCS TECH Seminar Series 2025 – DYCI (April 2025)**
- **International Research Conference – PSITE-CL (March 2024)**
